Sample code i11120

### Condition of crystallization

Cold  $\text{CH}_2\text{Cl}_2/\text{n-nexane}$  (1/2) solution at  $-20^\circ$ .

### Reaction scheme and proposed structure

eq:            0.5                            1

### Method of collection

Crystal was mounted using oil under cold temperature 150K for 7 hours.

### Crystal morphology and size

Colorless Crystal with size  $0.1 \times 0.1 \times 0.12 \text{ mm}^3$

Crystal shape is Triclinic
